WORK EXPERIENCE

Software Engineer **Azimuth Labs, Almaty KZ** **April 2020 – Present**

- Building responsive web applications using **ReactJS** and **NextJS** written with **TypeScript** and **Functional Programming TypeScript**
- Created a module that generates and compiles icons from Figma

Software Engineer **OKauto.kz, Almaty KZ** **April 2019 – April 2020**

- Built and maintained mobile application “**OKauto**” using **React Native** (TypeScript) and responsive web application okauto.kz using **ReactJS**, **GatsbyJS**.
- First in Kazakhstan incorporated and launched in-app **ApplePay** for making (mobile)
- Conducted multiple **A/B tests** and found the best design for different screen thus increased **monthly active users by 10%**
- Incorporated **Fastlane** and reduced the AppStore/AppCenter deploy time by **15 minutes**. The most difficult was to ease the number of steps needed for future developers to use Fastlane

Software Engineer **ZeroToOneLabs, Almaty KZ** **Sep 2018 – April 2019**

- Developed mobile applications using **React Native** (TypeScript, MobX, Redux) and web application using **ReactJS**

Mobile Developer **nFactorial Incubator, Almaty KZ** **June 2018 – August 2018**

- Developed mobile applications using **React Native** (TypeScript, Redux) with own server on **NodeJS**.
- Incorporated **Apollo** and **GraphQL** to store user data and provide login process

EDUCATION

Astana, KZ **Nazarbayev University** **Fall 2016 – Spring 2021(expected)**

- Bachelor of Science in Computer Science and GPA 3.37/4.00

PROJECTS

- Mobile application “**Keste**” <https://github.com/oizuldan/keste> written on **React Native** (TypeScript and Redux) with backend on **NodeJS** <https://github.com/oizuldan/kesteserver>. Was downloaded and used by roughly **80%** of students of Nazarbayev University
- **Timetable** generator for Engineering students at Nazarbayev University written on **C++** <https://github.com/oizuldan/Timetable>

PROGRAMMING LANGUAGES, FRAMEWORKS & PLATFORMS

- **Programming Languages:** TypeScript • JavaScript • CSS • HTML • C++ • MySQL • Java
- **Frameworks & Platforms:** ReactJS • React Native • NextJS • GraphQL • Apollo • Docker • NodeJS
